

Automobile

Website + App Design

Scope of Work

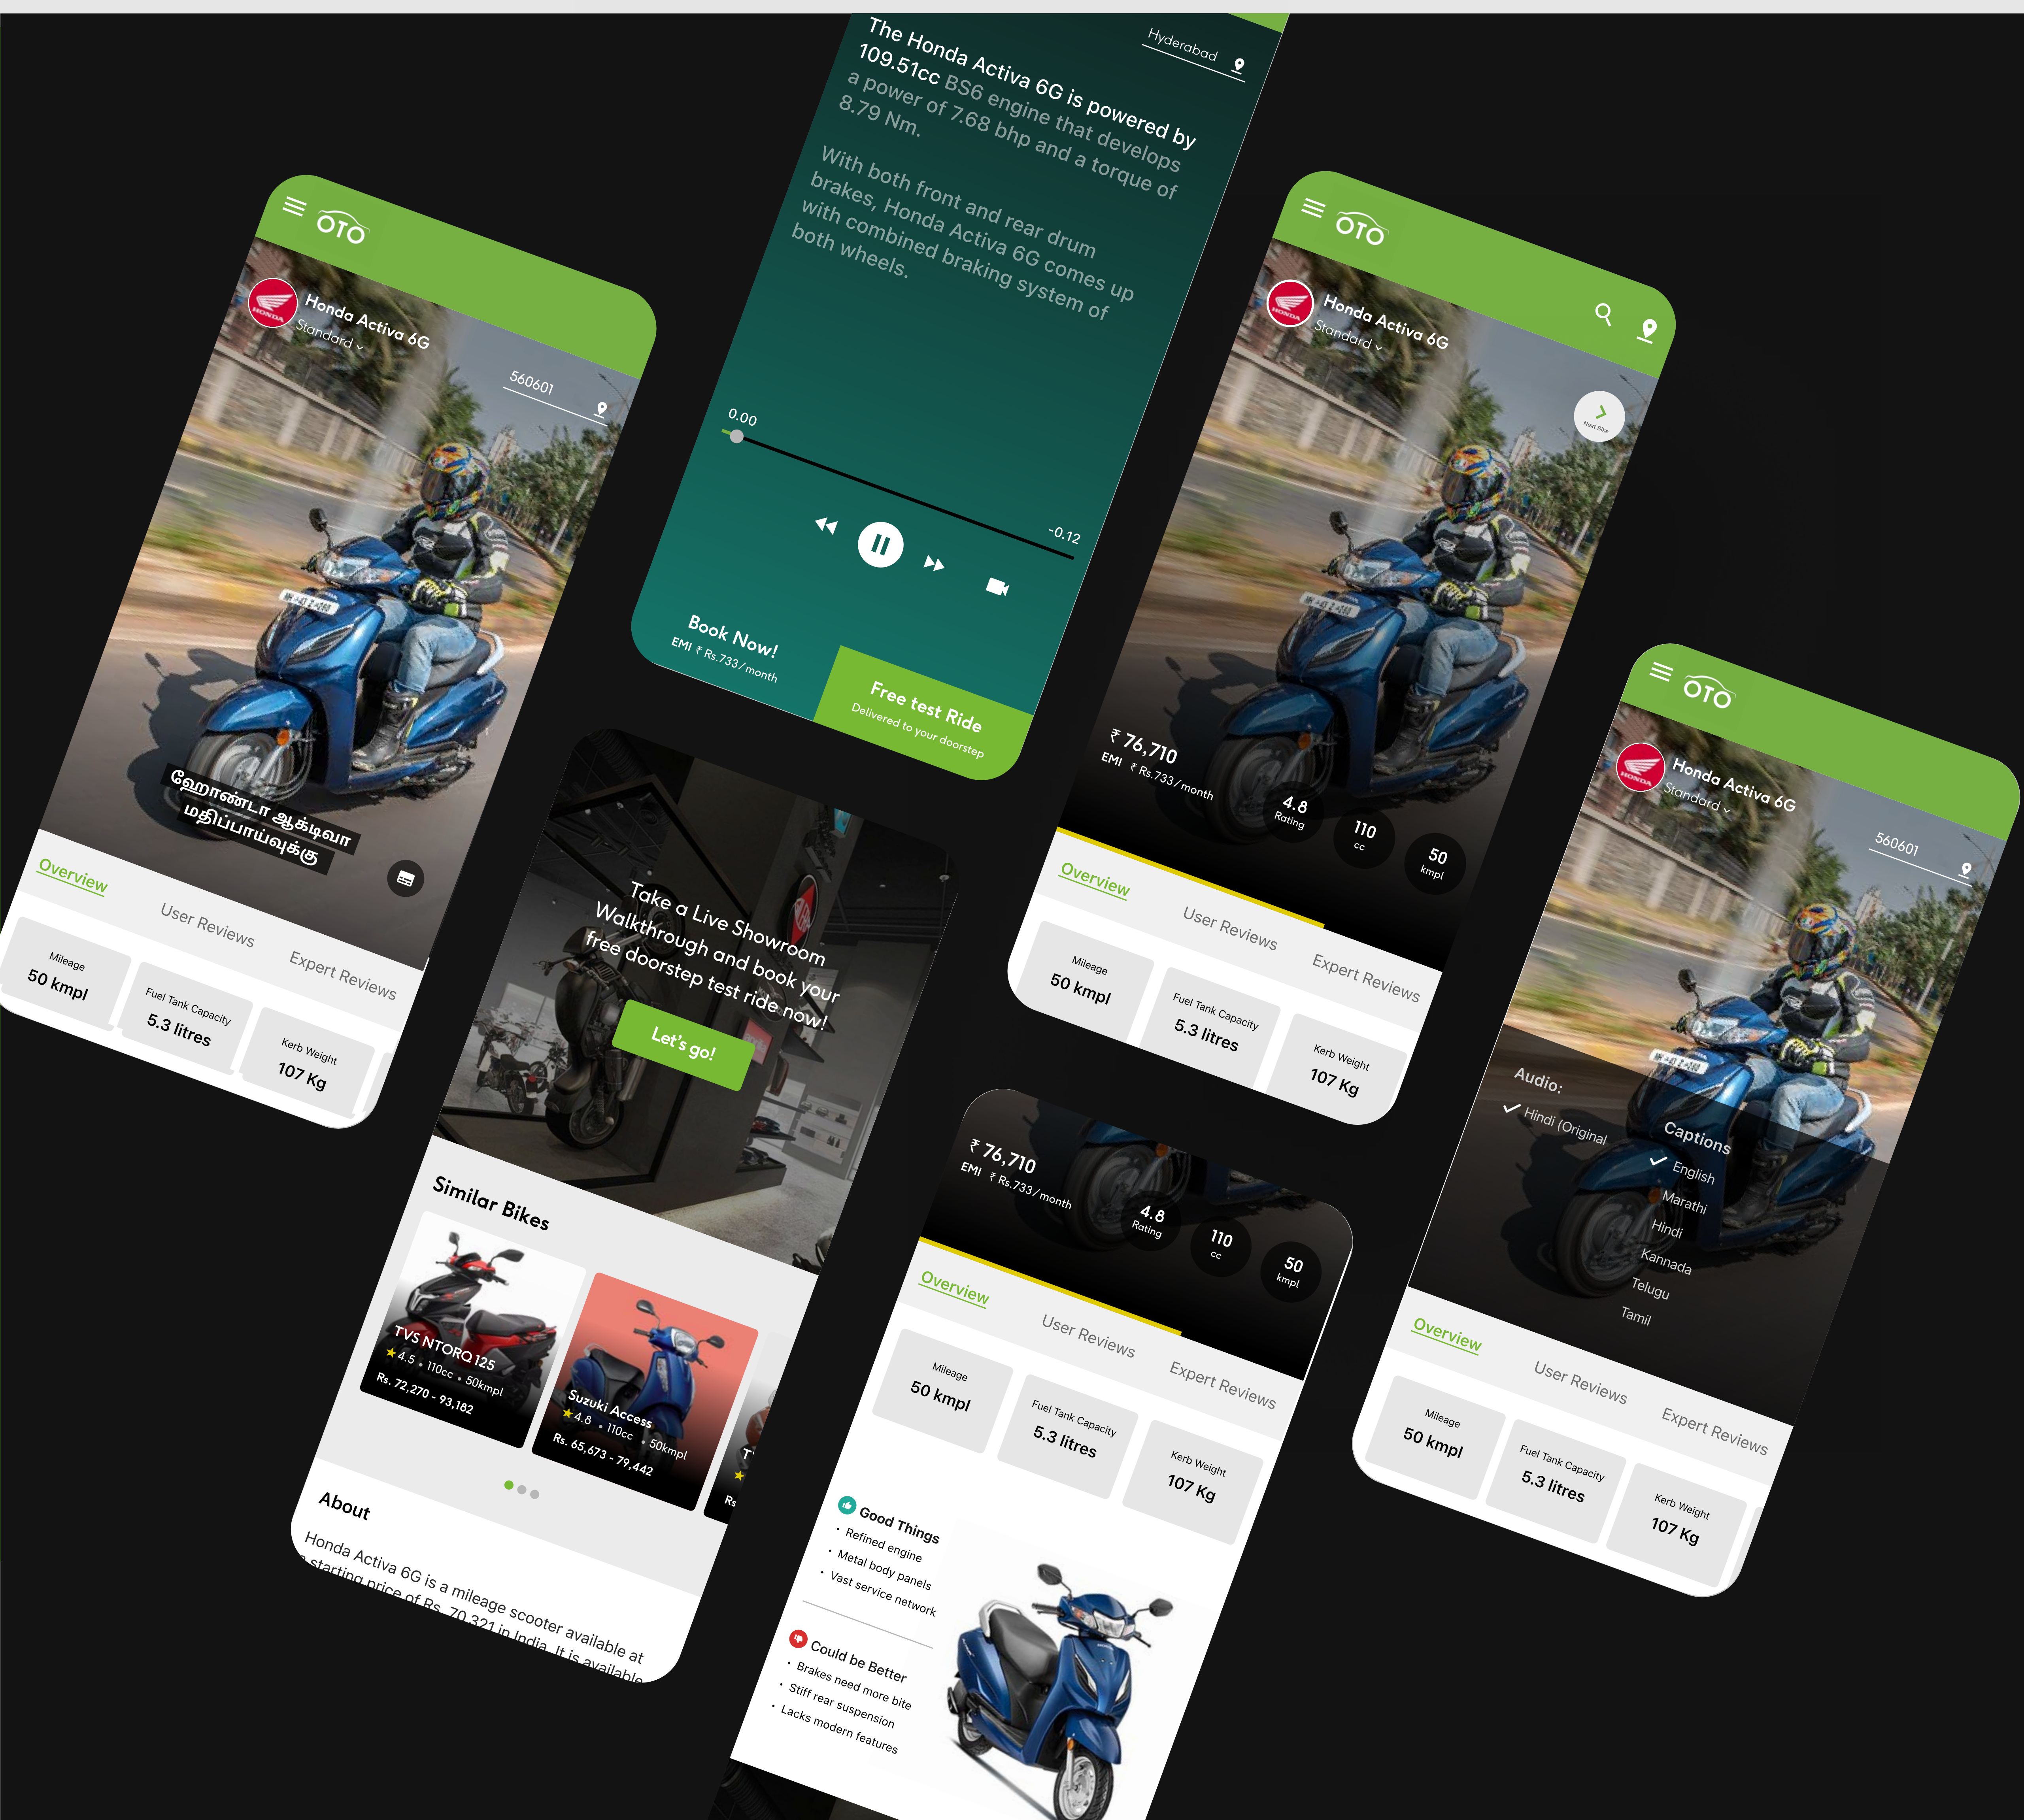

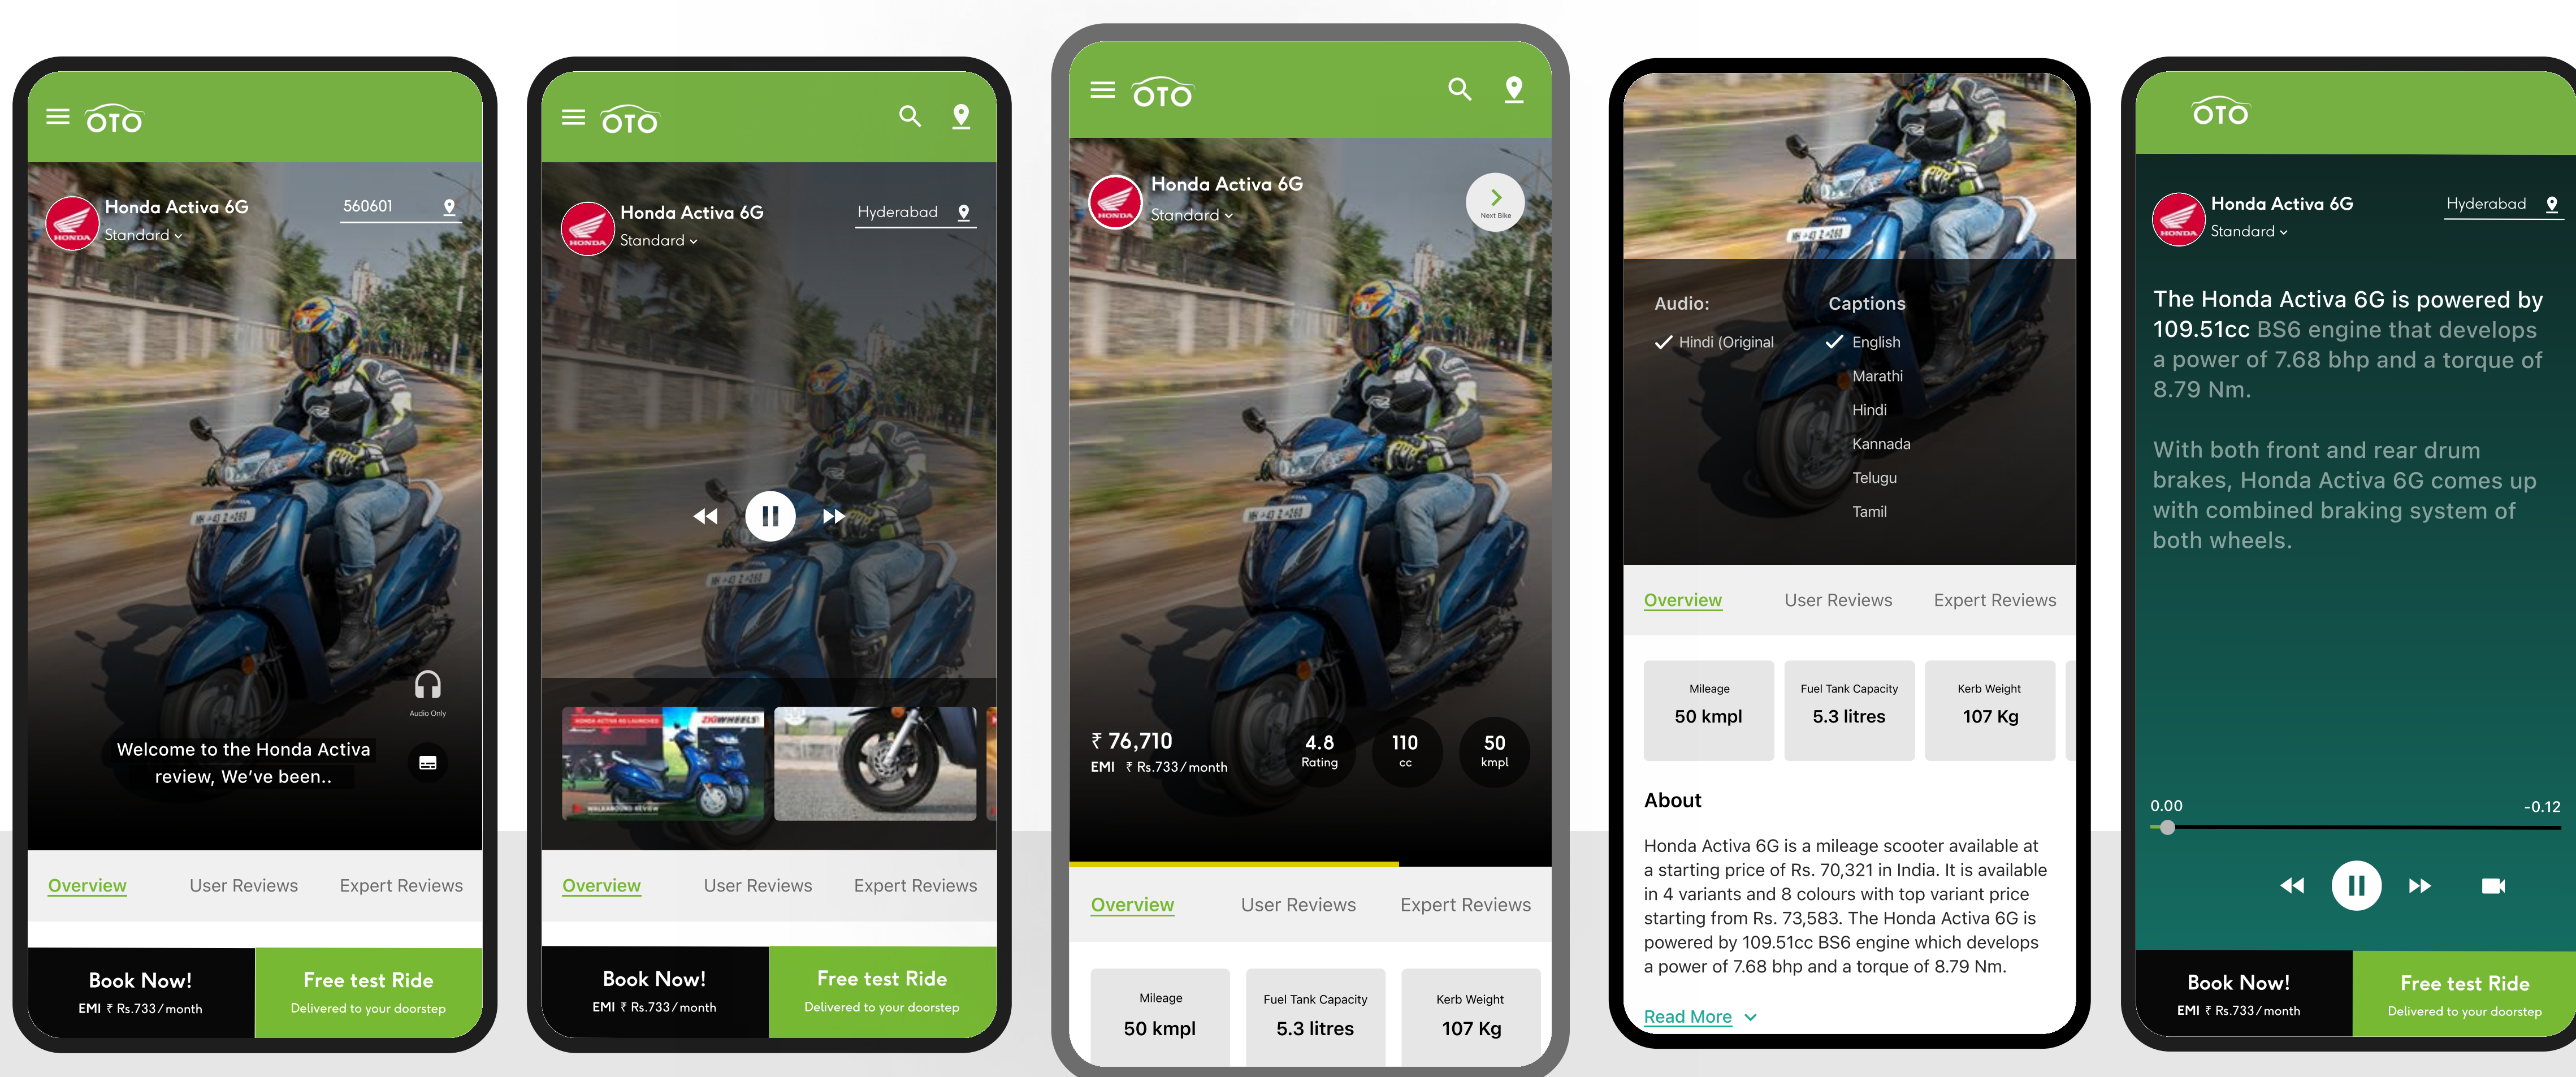

- + UI/UX Design
- + Content
- + App Development

The Challenge

OTO Capital brings users the fastest way to get their hands on two-wheelers, with flexible payment options, Lower EMIs and more. We partnered with OTO to reimagine buying automobiles. So we took the off-beaten path - make the entire journey socially engaging plus immersive experiences. Buy vehicles with Video / Audio with multilingual support instead of making it just another static website with information & Photos.

Socially Immersive Experiences
